

# Why Do People Love

**QUALITY.** Our frozen meats and vegetables are premium quality products. These are the same products served in nice restaurants, but our customers enjoy them in bulk packaging at affordable prices. Their **Grade A** flavor, texture, and color make them standouts in your meals.

**FRESHNESS.** Even our pre-cooked bacon isn't manufactured and packaged until the week that it ships. Our products don't sit in warehouses, and you can taste the flavorful difference!

## ***BULK SPICES and BAKING SUPPLIES.***

Our customers love buying fresh, aromatic spices in 1 lb. bags for the same price they would pay for small jars in their local grocery store. They also love our powdered flavorings, bulk chocolate chips, and fresh nuts for their baking. For convenience, we also offer our versatile private label mixes.

**DEHYDRATED PRODUCTS.** Every month our catalog offers a nice selection of dehydrated and other long-term storage and preparedness products to help our customers prepare for the unexpected.

**UNIQUE ITEMS.** Our customers love having access to the same scrumptious products that foodservice companies do, like frozen soups, proof-and-bake butter flake rolls, etc.

**CONVENIENCE.** Alison's Pantry customers love the convenience of planning ahead and placing a monthly order. Their freezers have the ingredients they need for delicious meals so they don't have to run to the local store, and pay more. They also love the personal service they receive from their AP Rep.
